### **DETAILED ACTION**

1. Claims 12-21 are pending. Applicant's January 31, 2005 Amendment and REMARKS have been reviewed. The previous rejections are withdrawn pursuant thereto.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 12-21 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12, line 3, the phrase "a list of items available for sale" is not clear. No what, where or who comprise the "for sale" limitation. As is, the "for sale" limitation is practically infinite in scope. Thus, it is indefinite.

#### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Gu discloses, e.g. col. 4, non bar coded produce items whose images corresponding to a list of most frequently sold items, e.g. 30, and a graphical user interface, e.g. col. 7, lines 40-45. Gu does not specifically disclose the term product look up entry device. To have provided a product look up entry device for Gu would have been obvious to one of ordinary skill in the art. The motivation for providing such would have been to have provided the recognition software, e.g. 21, to allow a product look up when viewing all the variables each piece of produce/item creates when ascertaining what the produce/item comprises. To update the library to reflect the changing status of products sold would have been obvious to one of ordinary skill in the art. The motivation for doing such would have been allowing for current status reports, reports that are common knowledge in the art, to allow a vendor/grocer to ascertain various data to increase sales/profit margins. Applicant's REMARKS have been reviewed, but are moot in light of the new ground of rejection.

6. Further pertinent references of interest are noted:

Gould et al., US 6,693,236 discloses a data list, e.g. Abstract.

Gu, US 6,409,085, discloses non bar coded items, e.g. col. 3, lines 27-42.

Ikeda et al., 5,375,680, discloses a self-service check out device having a weight database.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
